- **Web Fundamentals:** HTML, CSS, Design Systems, Accessibility Best Practices
- **APIs & Version Control:** RESTful APIs, Git Version Control
- **Design & Tools:** Figma
- **Exposure:** Webflow, WordPress, Machine Learning

03 PROFESSIONAL EXPERIENCE

Chronicles Software Dev Company

Apr 2025 - Present

Application/web Developer

Lagos, Nigeria

Developed and maintained interactive dashboards and UI interfaces using React.js and Tailwind CSS, ensuring responsive design and adherence to modern HTML and CSS practices.

- Enhanced applications by integrating RESTful APIs and implementing dynamic data rendering tailored to user roles and school types.
- Collaborated with backend and design teams to maintain consistent UI/UX across modules, aligning with design systems and accessibility best practices.
- Engineered layout structures and mobile responsiveness, supporting seamless user interactions on multiple devices.
- Contributed to the SuccessTab digital learning platform, optimizing the user experience for diverse educational content.

Skyestudio

Jun 2024 - Mar 2025

Software Engineer

Lagos, Nigeria

Developed and contributed to Skye Editor, a web-based design tool for creating marketing materials, utilizing Vue.js with Vite for a performant frontend architecture.

- Implemented advanced design features such as text editing, image manipulation, and shape customization, ensuring a user-centric experience.
- Integrated Fabric.js to enable canvas-based design capabilities, including drag-and-drop functionality, object transformations, and clip-path manipulation.
- Enhanced user experience through features like layer management, opacity control, and multi-format design exporting, while incorporating modern JavaScript frameworks and responsive design practices.

Tino

Mar 2023 - Jun 2024

Frontend Engineer

Lagos, Nigeria

E-commerce App

An innovative e-commerce platform enhancing user-centric online shopping through seamless transaction processes.

- Engineered an intuitive application using NextJs routing strategies, improving navigation efficiency and user experience, resulting in increased user satisfaction
- Developed reusable server-side components to optimize Search Engine Optimization (SEO) efficiency and performance.
- Built and optimized multiple UIs for both web and mobile experiences, enhancing user accessibility and responsiveness.
- Implemented an interactive calendar module, improving user engagement and productivity within the application.

Kryzotech

Dec 2022 - Mar 2023

Software Developer

Dhaka, BANGLADESH

Kryzotech is a customer-centric company. we ensure the fastest delivery with quality services.

- Designed and implemented responsive user interfaces, enhancing user experience across devices and increasing user engagement
- Developed RESTful APIs, ensuring smooth integration between frontend and backend systems, which improved application performance
- Engaged in team meetings and brainstorming sessions, contributing to project progress and developing strategies for improvement
- Collaborated with cross-functional teams to gather requirements and transform them into technical solutions, leading to successful project completion
